Project Name	AI-Powered Multi-Language Translator using Gemini
Maximum Marks	2 Marks

Customer Problem Statement Template:

A clear problem statement helps the team understand the customer's perspective while developing the **TransLingua: AI-Powered Multi-Language Translator**. It focuses on addressing communication challenges caused by language barriers and aims to create a simple, accurate, and user-friendly translation experience.

By defining customer needs and difficulties, the team can design effective solutions and better understand how users interact with and benefit from the TransLingua application.

I am	Describe customer with 3-4 key characteristics - *who are they?*	Describe the customer and their attributes here
I'm trying to	*List their outcome or "job" the care about - what are they trying to achieve?*	List the thing they are trying to achieve here
but	Describe what problems or barriers stand in the way – *what bothers them most?*	Describe the problems or barriers that get in the way here
because	Enter the "root cause" of why the problem or barrier exists – *what needs to be solved?*	Describe the reason the problems or barriers exist
which makes me feel	Describe the emotions from the customer's point of view – *how does it impact them emotionally?*	Describe the emotions the result from experiencing the problems or barriers

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A student or professional communicating in different languages	Understand or translate text quickly	I cannot accurately translate unfamiliar languages	Existing tools are complex or give unclear translations	Frustrated and confused
PS-2	A traveler or online user	Communicate with people who speak another language	I face language barriers during conversations	I don't know multiple languages or reliable translation methods	Limited and disconnected
